Dear :

What is your company's greatest asset?

Hopefully you answered "people." Although, as business executives, you might feel your greatest asset is your fleet of trucks that transport goods for your customers, the truth is, if all your drivers didn't show up for work – who would drive your trucks?

Anyone who has been behind the wheel of a truck, van or car, knows the physical wear and tear long trips have on your neck, shoulders and back. TheraTouch understands this and has a wonderful benefit for your drivers.

TheraTouch Professional Massage, was founded by Efim Scherbakov, an Internationally Certified Massage Therapist and professor at the Ohio College of Massotherapy. His new office conveniently located in the TA Travel Center at exit 209 (I-76 & I-71) offers quick access to your drivers. All professional services are provided according to regulations from the State of Ohio Medical Board.

TheraTouch has a new "Brake For Massage To Tune Uo Your Body" program now available exclusively to trucking companies. Offering a 30-minute or 60-minute massage for your drivers will:

Improve posture
Improve digestion
Improve circulation
Increase ease and efficiency of movement
Provide relief of muscle tension and stiffness
Make for Happier, Healthier, more Alert drivers

It takes time and money to train new drivers. Adding the TheraTouch benefit for your drivers will increase job satisfaction and reduce job turnover.

Call toll free today to take advantage of this limited time offer. 1-888-304-0229.

Sincerely,

Efim Scherbakov, LMT, LPTA
Owner, BWC Certified
